

KB-STT SEPTIC SAVER

FOR USE IN SEPTIC TANKS AND DRAIN FIELDS

ADVANTAGES:

The multi-strains of microbes contained in BioStim's KB-STT freeze dried powders are designed to digest fats, oils, grease, starches and sugars. These organics are the primary cause of buildup and blockages in septic tanks and drain fields. KB-STT will greatly reduce or eliminate organic buildup and odor in these areas and promote free flow of the entire septic system.

BIO FRIENDLY

NON-CAUSTIC
NON-PATHOGENIC
NO CHEMICALS, ENZYMES OR SURFACTANTS
100% MICROBIAL
NON-CORROSIVE
NON-FLAMMABLE
NON-TOXIC

USAGE

Empty contents of package into toilet.
Flush for delivery to the septic system.
Repeat every 3 months.

Environmentally safe formulations have always been a priority with BioStim. Our bioremediation services are performed with 100% non-pathogenic BioStim microbial products.
